Brekke,A.

Egeland,2012-12-06 In Nordic literature a remarkable discussion of the northern light appears in Kongespeilet The King's Mirror a thirteenth century Norwegian chronicle It is described in vivid detail as the following translated excerpts demonstrate These northern lights have this peculiar nature that the darker the night is the brighter they seem and they always appear at night but never by day most frequently in the densest darkness and rarely by moonlight In appearance they resemble a vast flame of fire viewed from a great distance It also looks as if sharp points were shot from this flame up into the sky these are of uneven height and in constant motion now one now another darting highest and the light appears to blaze like a living flame Three different theories for the origin of the northern light were suggested in this book Numerous naturally occurring heavenly phenomena have been observed and enjoyed as long as the Earth has been inhabited but hardly any of them has stirred man's imagination curiosity and fear as much as the northern light The northern light is certainly one of the most spectacular of nature's phenomena Extreme Habitats: Polar Region Survival (EasyRead Super Large 20pt Edition) , *Extreme Habitats: Polar Region Survival (EasyRead Super Large 24pt Edition)* , *Land of the Midnight Sun* Alexander Armstrong,2015-10-08 In an adventure of a lifetime Alexander Armstrong wraps up warm and heads ever north to

POLAR NIGHT Marine Ecology Jørgen Berge,Geir Johnsen,Jonathan H.

Cohen,2020-04-08 Until recently the prevailing view of marine life at high latitudes has been that organisms enter a general resting state during the dark Polar Night and that the system only awakens with the return of the sun Recent research however with coordinated multidisciplinary field campaigns based on the high Arctic Archipelago of Svalbard have provided a radical new perspective Instead of a system in dormancy a new perspective of a system in full operation and with high levels of activity across all major phyla is emerging Examples of such activities and processes include Active marine organisms at sea surface water column and the sea floor At surface we find active foraging in seabirds and fish in the water column we find a high biodiversity and activity of zooplankton and larvae such as active light induced synchronized diurnal vertical migration and at seafloor there is a high biodiversity in benthic animals and macroalgae The Polar Night is a period for reproduction in many benthic and pelagic taxa mass occurrence of ghost shrimps Caprellides high abundance of Ctenophores physiological evidence of micro and macroalgal cells that are ready to utilize the first rays of light when they appear deep water fishes found at water surface in the Polar night and continuous growth of bivalves throughout the winter These findings not only begin to shape a new paradigm for marine winter ecology in the high Arctic but also provide conclusive evidence for a top down controlled system in which primary production levels are close to zero In an era of environmental change that is accelerated at high latitudes we believe that this new insight is likely to strongly impact how the scientific community views the high latitude marine ecosystem Despite the overwhelming darkness the main environmental variable affecting marine organisms in the Polar Night is in fact light The light regime during the Polar Night is unique with respect to light intensity spectral composition of light and photoperiod **Arctic Discourses** Anka Ryall,Johan Schimanski,Henning Howlid Wærp,2010-02-19 Both fictional and non fictional accounts of the Arctic have long been a major source of powerful images of the region and have thus had a crucial part to play in the history of human activities there This volume provides a wide reaching investigation into the discourses involved in such accounts above all into the consolidation of a discourse of Arcticism modelled on Edward Said s concept of Orientalism but also into the many intersecting discourses of imperialism nationalism masculinity modernity geography science race ecology indigeneity aesthetics etc Perspectives originating from inside and outside the Arctic along with hybrid positions are examined with special attention being given to the textual genres narratives and figures which they mobilize together with to the close relationship between the Arctic as an unknown place and the literary imagination The different chapters address a wide geographical range of texts providing a necessary supplement to most previous work in the field and also address the wide variety of genres which flourish under the aegis of Arctic discourse ranging from exploration accounts travel writing political texts and journalism through diaries and historical documents to novels and novelizations and including also other media such as music and opera Alaskan Quest Tracie Peterson,2009-09 Confronted by an old flame Leah Barringer realizes her feelings for him never went away and she is whisked away on an unforgettable journey
