Nietzsche Godfather Of Fascism On The Uses And Abuses Of A Philosophy:

Nietzsche, Godfather of Fascism? Jacob Golomb, Robert S. Wistrich, 2024-11-01 Nietzsche the Godfather of Fascism What can Nietzsche have in common with this murderous ideology Frequently described as the radical aristocrat of the spirit Nietzsche abhorred mass culture and strove to cultivate an *Übermensch* endowed with exceptional mental qualities What can such a thinker have in common with the fascistic manipulation of the masses for chauvinistic goals that crushed the autonomy of the individual The question that lies at the heart of this collection is how Nietzsche came to acquire the deadly honor of being considered the philosopher of the Third Reich and whether such claims had any justification Does it make any sense to hold him in some way responsible for the horrors of Auschwitz The editors present a range of views that attempt to do justice to the ambiguity and richness of Nietzsche's thought First rate contributions by a variety of distinguished philosophers and historians explore in depth Nietzsche's attitudes toward Jews Judaism Christianity anti-Semitism and National Socialism They interrogate Nietzsche's writings for fascist and anti-Semitic proclivities and consider how they were read by fascists who claimed Nietzsche as their intellectual godfather There is much that is disturbingly antiegalitarian and antidemocratic in Nietzsche and his writings on Jews are open to differing interpretations Yet his emphasis on individualism and contempt for German nationalism and anti-Semitism put him at stark odds with Nazi ideology The Nietzsche that emerges here is a tragic prophet of the spiritual vacuum that produced the twentieth century's totalitarian movements the thinker who best diagnosed the pathologies of fin de siècle European culture Nietzsche dared to look into the abyss of modern nihilism This book tells us what he found The contributors are Menahem Brinker Daniel W Conway Stanley Corngold Kurt Rudolf Fischer Jacob Golomb Robert C Holub Berel Lang Wolfgang Müller Lauter Alexander Nehamas David Ohana Roderick Stackelberg Mario Sznajder Geoffrey Waite Robert S Wistrich and Yirmiyahu Yovel *The Oxford Handbook of Nietzsche* Ken Gemes, John Richardson, 2013-09-05 The diversity of Nietzsche's books and the sheer range of his philosophical interests have posed daunting challenges to his interpreters This Oxford Handbook addresses this multiplicity by devoting each of its 32 essays to a focused topic picked out by the book's systematic plan The aim is to treat each topic at the best current level of philosophical scholarship on Nietzsche The first group of papers treat selected biographical issues his family relations his relations to women and his ill health and eventual insanity In Part 2 the papers treat Nietzsche in historical context his relations back to other philosophers the Greeks Kant and Schopenhauer and to the cultural movement of Romanticism as well as his own later influence in an unlikely place on analytic philosophy The papers in Part 3 treat a variety of Nietzsche's works from early to late and in styles ranging from the aphoristic *The Gay Science* and *Beyond Good and Evil* through the poetic mythic *Thus Spoke Zarathustra* to the florid autobiography *Ecce Homo* This focus on individual works their internal unity and the way issues are handled within them is an important complement to the final three groups of papers which divide up Nietzsche's philosophical thought topically The papers in Part 4 treat issues in Nietzsche's value theory ranging

from his metaethical views as to what values are to his own values of freedom and the overman to his insistence on order of rank and his social political views The fifth group of papers treat Nietzsche's epistemology and metaphysics including such well known ideas as his perspectivism his INSERT Included in Starkmann 40% promotion September October 2014 being and his thought of eternal recurrence Finally Part 6 treats another famous idea the will to power as well as two linked ideas that he uses will to power to explain the drives and life This Handbook will be a key resource for all scholars and advanced students who work on Nietzsche Existential Philosophy and Disability, 2025-05-29 This volume proposes a novel approach to engaging philosophically with disability studies Taking as a starting point the fact that disability is an integral part of human existence the chapters in this volume provide insight into situated lived experiences of disability in articulation with prominent existential philosophers Historical and theoretical perspectives bring the dominant models of understanding disability today medical or biomedical and social into dialogue with existential philosophical perspectives and thematic contributions provide insight into specific disabled experiences which have historically been underrepresented in philosophy including mental illness addiction severe cognitive intellectual disability ADHD autism and neurodivergent communication

The Oxford Handbook of German Philosophy in the Nineteenth Century Michael N. Forster, Kristin Gjesdal, 2015-02-05 The Oxford Handbook of German Philosophy in the Nineteenth Century is the first collective critical study of this important period in intellectual history The volume is divided into four parts The first part explores individual philosophers including Fichte Hegel Schopenhauer Marx and Nietzsche amongst other great thinkers of the period The second addresses key philosophical movements Idealism Romanticism Neo Kantianism and Existentialism The essays in the third part engage with different areas of philosophy that received particular attention at this time including philosophy of nature philosophy of mind philosophy of language philosophy of history and hermeneutics Finally the contributors turn to discuss central philosophical topics from skepticism to materialism from dialectics to ideas of historical and cultural Otherness and from the reception of antiquity to atheism Written by a team of leading experts this Handbook will be an essential resource for anyone working in the area and will lead the direction of future research The New Cambridge Companion to Nietzsche Tom Stern, 2019-04-18 Provides comprehensive and up to date coverage of Nietzsche's philosophy his key works and themes his major influences and his legacy **Concepts of Power in Kierkegaard and Nietzsche** J. Keith Hyde, 2016-09-17 The name Friedrich Nietzsche has become synonymous with studies in political power The application of his theory that the vast array of human activities comprises manifestations of the will to power continues to influence fields as diverse as international relations political studies literary theory the social sciences and theology To date the introduction of Søren Kierkegaard into this discussion has been gradual at best Long derided as the quintessential individualist the social dimension of his fertile thought has been neglected until recent decades This book situates Kierkegaard in direct dialogue with Nietzsche on the topic of power and authority Significant contextual similarities warrant

such a comparison both severely criticized state Lutheranism championed the self and its imaginative ways of knowing against the philosophical blitzkrieg of Hegelianism and endured the turbulent emergence of the nation state However the primary justification remains the depth defying prescience with which Kierkegaard not only fully anticipates but rigorously critiques Nietzsche's power position thirty years in advance

Nietzsche's Revolution C. Schotten, 2009-07-20 This book claims Nietzsche as a leftist revolutionary but without overlooking the conservative and retrogressive elements of his political philosophy The author argues that these two halves of his philosophy help construct a new form of politics for contemporary readers a possibility of revolution post Marx

Deleuze and Guattari's Philosophy of 'Becoming-Revolutionary' Raniel S.M. Reyes, 2020-04-27 This book reconstructs Deleuze and Guattari's micropolitics toward a philosophy of becoming revolutionary It provides novel ways to comprehend their political philosophy through a critical engagement with Chantal Mouffe's theorization of radical democracy Michael Hardt and Negri's diagnosis of Empire Franco Berardi's analysis of semiocapitalism the Philippine Party List System Act and the ASEAN Integration Project to name a few These initiatives aim to examine expand and challenge Deleuzo-Guattarian philosophy against the backdrop of various present day predicaments and practices that perpetually allow people to choose their own oppression Furthermore the book embarks on an invigorating journey through philosophy politics cultural studies and contemporary events searching for new modes of thinking and resistance that carry with them the radical potentials of a revolution to come Through the philosophy of becoming revolutionary the book endorses the cultivation of new concepts subjectivities and relations capable of subverting advanced capitalism and other kinds of ethical fascism toward a people and world to come

On Affirmation and Becoming Paolo A. Bolaños, 2014-11-10 This book re-explores Friedrich Nietzsche's critique of nihilism through the lenses of Gilles Deleuze A Deleuzian reading of Nietzsche is motivated by a post deconstructive style of interpretation inasmuch as Deleuze goes beyond or in between hermeneutics and deconstruction The book is not about Deleuze's reading per se rather it is an appraisal of Nietzsche's critique of nihilism using Deleuze's experimental reading As such the book is an experiment in itself as it shows how to partly gloss Nietzsche's critique of nihilism through Deleuzian phraseology
