Nietzsches On The Genealogy Of Morality A Critical Guide Cambridge Critical Guides:

Nietzsche's on the Genealogy of Morality: A Critical Guide Simon May, 2014-05-14 This volume brings together a broad range of prominent philosophers writing in English from both sides of the Atlantic and beyond so giving a sense for the current state of English speaking scholarship in the field Most do not limit themselves to close textual exegesis but rather treat fundamental themes and aims of the work as a whole freely discussing their philosophical importance **The Oxford Handbook of Nietzsche** Ken Gemes, John Richardson, 2013-09-05 The diversity of Nietzsche's books and the sheer range of his philosophical interests have posed daunting challenges to his interpreters This Oxford Handbook addresses this multiplicity by devoting each of its 32 essays to a focused topic picked out by the book's systematic plan The aim is to treat each topic at the best current level of philosophical scholarship on Nietzsche The first group of papers treat selected biographical issues his family relations his relations to women and his ill health and eventual insanity In Part 2 the papers treat Nietzsche in historical context his relations back to other philosophers the Greeks Kant and Schopenhauer and to the cultural movement of Romanticism as well as his own later influence in an unlikely place on analytic philosophy The papers in Part 3 treat a variety of Nietzsche's works from early to late and in styles ranging from the aphoristic *The Gay Science* and *Beyond Good and Evil* through the poetic mythic *Thus Spoke Zarathustra* to the florid autobiography *Ecce Homo* This focus on individual works their internal unity and the way issues are handled within them is an important complement to the final three groups of papers which divide up Nietzsche's philosophical thought topically The papers in Part 4 treat issues in Nietzsche's value theory ranging from his metaethical views as to what values are to his own values of freedom and the overman to his insistence on order of rank and his social political views The fifth group of papers treat Nietzsche's epistemology and metaphysics including such well known ideas as his perspectivism his *INSERT* Included in Starkmann 40% promotion September October 2014 being and his thought of eternal recurrence Finally Part 6 treats another famous idea the will to power as well as two linked ideas that he uses will to power to explain the drives and life This Handbook will be a key resource for all scholars and advanced students who work on Nietzsche [Nietzsche on Morality and the Affirmation of Life](#) Daniel Came, 2022 This volume brings together a number of new essays by leading Nietzsche scholars to examine the philosopher's famous critique of morality and his emphasis on life affirming values **Nietzsche's On the Genealogy of Morals** Christa Davis Acampora, 2006-09-08 This astonishingly rich volume collects the work of an international group of scholars including some of the best known in academia Experts in ethics epistemology philosophy of mind political theory aesthetics history critical theory and hermeneutics bring to light the best philosophical scholarship what is arguably Friedrich Nietzsche's most rewarding but most challenging text Including essays that were commissioned specifically for the volume as well as essays revised and edited by their authors this collection showcases definitive works that have shaped Nietzsche studies alongside new works of interest to students and experts alike Sections are devoted to the topic of

genealogy generally numerous essays on specific passages applications of genealogy in later thinkers and the import of Nietzsche's Genealogy in contemporary politics ethics and aesthetics A lengthy introduction annotated bibliography and index make this an extremely useful guide for the classroom and advanced research Nietzsche's 'On the Genealogy of Morality' Lawrence J. Hatab, 2008-10-02 Nietzsche's On the Genealogy of Morality 1887 is a forceful perplexing important book radical in its own time and profoundly influential ever since This introductory textbook offers a comprehensive close reading of the entire work with a section by section analysis that also aims to show how the Genealogy holds together as an integrated whole The Genealogy is helpfully situated within Nietzsche's wider philosophy and occasional interludes examine supplementary topics that further enhance the reader's understanding of the text Two chapters examine how the Genealogy relates to standard questions in moral and political philosophy Written in a clear accessible style this book will appeal to students at every level coming to read the Genealogy for the first time and a wider range of readers will also benefit from nuanced interpretations of controversial elements in Nietzsche's work Nietzsche's Psychology of Ressentiment Guy Elgat, 2017-03-31 Ressentiment the hateful desire for revenge plays a pivotal role in Nietzsche's On the Genealogy of Morals Ressentiment explains the formation of bad conscience guilt asceticism and most importantly it motivates the slave revolt that gives rise to Western morality's values Ressentiment however has not enjoyed a thorough treatment in the secondary literature This book brings it sharply into focus and provides the first detailed examination of Nietzsche's psychology of resentment Unlike other books on the Genealogy it uses resentment as a key to the Genealogy and focuses on the intriguing relationship between resentment and justice It shows how resentment despite its blindness to justice gives rise to moral justice the central target of Nietzsche's critique This critique notwithstanding the Genealogy shows Nietzsche's enduring commitment to the virtue of non moral justice a commitment that grounds his provocative view that moral justice spells the end of justice The result provides a novel view of Nietzsche's moral psychology in the Genealogy his critique of morality and his views on justice **Nietzsche's Jewish Problem** Robert C. Holub, 2015-10-20 The first comprehensive account of Nietzsche's views of Jews and Judaism For more than a century Nietzsche's views about Jews and Judaism have been subject to countless polemics The Nazis infamously fashioned the philosopher as their anti Semitic precursor while in the past thirty years the pendulum has swung in the opposite direction The increasingly popular view today is that Nietzsche was not only completely free of racist tendencies but also was a principled adversary of anti Jewish thought Nietzsche's Jewish Problem offers a definitive reappraisal of the controversy taking the full historical intellectual and biographical context into account As Robert Holub shows a careful consideration of all the evidence from Nietzsche's published and unpublished writings and letters reveals that he harbored anti Jewish prejudices throughout his life Nietzsche's Jewish Problem demonstrates how this is so despite the apparent paradox of the philosopher's well documented opposition to the crude political anti Semitism of the Germany of his day As Holub explains Nietzsche's anti anti Semitism was motivated more

by distaste for vulgar nationalism than by any objection to anti Jewish prejudice A richly detailed account of a controversy that goes to the heart of Nietzsche s reputation and reception Nietzsche s Jewish Problem will fascinate anyone interested in philosophy intellectual history or the history of anti-Semitism

The Rise of Politics and Morality in Nietzsche's Genealogy Jeffrey Metzger, 2019-11-14 Nietzsche s On the Genealogy of Morals has become a central text for understanding the thinker and his impact on moral philosophy Yet his account of the rise of political society and its relation to morality has generally been overlooked in large part because of its strange and often confusing character In The Rise of Politics and Morality in Nietzsche s Genealogy From Chaos to Conscience Jeffrey Metzger devotes careful attention to Nietzsche s analysis of the origin of political society in the Second Essay and its intertwining with the development of morality and religion Focused on how that account places Nietzsche s understanding of humanity in his larger conceptions of nature and the will to power the book further considers how Nietzsche grounds his thought in the world as he presents it and the strengths and weaknesses of Nietzsche s approach to this crucial moment in human development This book will interest philosophers political theorists and anyone else interested in Nietzsche and his contribution to our understanding of how we became human

Nietzsche's Philosophical Psychology Mattia Riccardi, 2021 This book offers a systematic account of Nietzsche s thought on the human mind A central theme is the nature of and relation between the unconscious and conscious mind relating Nietzsche s work to contemporary debates about consciousness and theory of mind

Nietzsche, Power and Politics Herman Siemens, Vasti Roodt, 2009-02-26 Nietzsche s legacy for political thought is a highly contested area of research today With papers representing a broad range of positions this collection takes stock of the central controversies Nietzsche as political anti political thinker Nietzsche and contra democracy Arendt and contra Nietzsche as well as new research on key concepts power the agon aristocracy friendship i a on historical contemporary and futural aspects of Nietzsche s political thought International contributors include well known names Conway Ansell Pearson Hatab Taureck Patton Connolly Villa van Tongeren and young emerging scholars from various disciplines
