Nice Book Social Media Iran Politics Society:

The Great Powers, and Iran's Social and Political Evolution Shireen T. Hunter, 2024-12-23 This book is a personal narrative chronicling the life and experiences of Shireen Hunter an Iranian woman who came of age during a transformative era in Iran's history. It begins by spanning the tumultuous aftermath of World War II to the pivotal 1979 revolution providing a poignant account of the profound impact of these historical events on the author's life. The book delves into the multifaceted consequences of the reformist period that began in the 1960s. They enabled Shireen to enter the diplomatic service but also cast a shadow of adversity over her family. Ultimately the reforms contributed to internal divisions that ignited the 1979 revolution. The book then explores Shireen's immigrant experience in the USA where she assumed the role of an ethnic expert in the volatile arena of Middle East politics. It candidly recounts challenges she faced in maintaining intellectual integrity while earning a livelihood highlighting the precariousness of being on the right side of controversial issues. The book does not offer definitive solutions to specific problems. Yet it resonates with contemporary international security and developmental challenges and offers insights that remain relevant in today's complex global landscape. With its multifaceted narrative encompassing Iran's social and political history women's studies immigrant experiences and a personal perspective on critical junctures in U.S. Iranian relations this book appeals to a diverse readership. It provides a unique window into lived experiences and analytical reflections of an individual who has traversed the intersections of history identity and diplomacy offering invaluable insights into both past and present. **Postrevolutionary Iran** R. R.

Asaadi, 2021-04-19 How is Iran governed? Is the state accountable to its society? How have Iran's political institutions evolved since the 1979 revolution? In short *Postrevolutionary Iran: the Leader, the People, and the Three Powers* argues that the answers to these critical questions are neither as certain nor as fixed as much of the existing literature on this topic would lead one to believe. Part 1 of the book (chapters 1-3) analyzes what Iran's Constitution refers to as the Three Powers: the executive, legislative, and judicial branches of government along with the unique mediating institutions of the Guardian and Expediency Councils. In each chapter the author describes the unique structure and function of the governing institution as outlined in Iran's Constitution then explains how the institution has evolved in practice over time. Several trends emerge from this analysis including among others the growing influence of the military in politics the expanding power of the Guardian Council at the expense of the parliament and the widening asymmetry of executive power favoring the supreme leader at the expense of the president. In Part 2 of the book (chapters 4-6) the analytical focus shifts from Iran's formal political institutions to consider instead the relationship between state and society more broadly with chapters on Iran's military and economic structure social movements and public attitudes and the media. Finally in the concluding chapter the author offers a comprehensive view of what this analysis of Iran's political institutions in theory and practice reveals about both the resilience of Iran's political system and its capacity for meaningful change. The Sage Handbook of Political Marketing Paul Baines,Phil Harris,Denisa Hejlova,Costas

Panagopoulos, 2025-08-07 The Sage Handbook of Political Marketing is a comprehensive resource that introduces the theory and practice of political marketing in a global yet simultaneously localized world. The practice of political marketing has evolved significantly during the 20th and 21st centuries, adapting to the rise of mass media, marketing communication, advertising, and the web. Traditionally dominated by US, European, and Australasian scholars, the field has up to now emphasized the Americanisation and professionalisation of campaigning styles. Since the start of the new millennium, however, political marketing has transformed into a data-driven, specialized profession. With increasing digitalisation and the advent of AI, political marketing involves personally targeted, evidence-based messaging with real-time engagement and sentiment analysis. This approach is not limited to democratic regimes but is also widely adopted by authoritarian states worldwide. The handbook addresses the global perspectives on political marketing, covering a myriad of contexts, cultures, and regimes. It encompasses insights into political marketing in regions seldom discussed in the literature, including Zimbabwe, Japan, India, Hong Kong, and Ukraine. These chapters enrich the debate on political marketing's impact on democracies and its use in non-democratic societies. Organized into four parts, the handbook covers strategy, propaganda, digital evolution, ideology, and contemporary practices in political marketing. It explores topics such as the marketing of ideology, the impact of the internet and social media, the use of AI in political marketing, and the role of fake news and disinformation in campaigns. The handbook addresses the use of political marketing techniques in crisis management, political branding, the measurement of political marketing effects, and political marketing use outside of electoral campaigns. The Sage Handbook of Political Marketing is an essential resource for scholars, practitioners, students, and politicians in general seeking to understand the complexities of political marketing. It provides a comprehensive and nuanced exploration of the field, equipping readers to engage with the theoretical and practical aspects of political marketing in a rapidly changing world.

Part 1: Strategy in Political Marketing: Orthodox and Occidental Perspectives
Part 2: Political Marketing: Propaganda and Digital Evolution: Global South and Eastern European Perspectives
Part 3: Ideology in Political Marketing: Advocacy Movements, Lobbying, and Public Diplomacy

Tehrangelles Dreaming Farzaneh Hemmasi, 2020-04-10 Los Angeles called Tehrangelles because it is home to the largest concentration of Iranians outside of Iran is the birthplace of a distinctive form of postrevolutionary pop music Created by professional musicians and media producers fleeing Iran's revolutionary era ban on immoral popular music Tehrangelles pop has been a part of daily life for Iranians at home and abroad for decades In *Tehrangelles Dreaming* Farzaneh Hemmasi draws on ethnographic fieldwork in Los Angeles and musical and textual analysis to examine how the songs music videos and television made in Tehrangelles express modes of Iranianness not possible in Iran Exploring Tehrangelles pop producers complex commercial and political positioning and the histories sensations and fantasies their music makes available to global Iranian audiences Hemmasi shows how unquestionably Iranian forms of Tehrangelles popular culture exemplify the manner in which culture media and diaspora combine to respond to the Iranian state and its political transformations The transnational circulation of Tehrangelles culture she contends transgresses Iran's geographical legal and moral boundaries while allowing all Iranians the ability to imagine new forms of identity and belonging

Religion and Daily Life in the Mountains of Iran Erika Friedl, 2020-12-10 Until the 1960s little was known inside or outside Iran about the tribes living in the country The anthropological research of Erika Friedl is now renowned for presenting comprehensive data collected over a 50 year period from her time among the Boir Ahmad tribal people living in the Zagros Mountains of Iran In this new book Friedl turns her attention to the subject of religion which she had only touched upon in her previous work About ninety percent of people in Iran and nearly everybody in Boir Ahmad are Muslims of the Twelver Shia group However studies of tribal people's religiosity beliefs and rituals are scarce and many researchers have discounted their views and experience regarding the tribes as only nominally religious because their practices do not fit in with the mainstream practices and ideas in Iran *Religion and Daily Life in the Mountains of Iran* corrects this view and provides a hallmark study of tribal people's religiosity Demonstrating the great diversity of their philosophical and religious ideas the book reveals the ways in which the tribes choose and express their religion define their communities and understand their world From conversations about God and his relationships with people to observations on ageing and death and research into the tribe's use of spells amulets and sacrifices to their beliefs about saints health and well being the book is an original ethnographic exploration of religion and daily life
