Colonial Office, 1949 Understanding African Real Estate Markets Aly Karam, François Viruly, Catherine Kariuki, Victor Akujuru, 2022-04-28 This book brings together a broad range of research that interrogates how real estate market analysis finance planning and investment for residential and commercial developments across the African continent are undertaken In the past two decades African real estate markets have rapidly matured creating the conditions for new investment opportunities which has increased the demand for a deeper understanding of the commercial and residential markets across the continent The chapters consider issues that pertain to formal real estate markets and the critical relationship between formal and informal property markets on the continent With contributing authors from South Africa Ghana Nigeria Uganda Kenya and Tanzania the book considers the achievements of African real estate markets while also highlighting the complex central themes such as underdeveloped land tenure arrangements the availability of finance in both the commercial and residential sectors rapidly growing urban areas and inadequate professional skills This book is essential reading for students in real estate land management planning finance development and economics programs who need to understand the nuances of markets in the African context Investors and policy makers will learn a lot reading this book too *Ecology and Power in the Age of Empire* Corey Ross, 2017-03-31 Ecology and Power in the Age of Empire provides the first wide ranging environmental history of the heyday of European imperialism from the late nineteenth century to the end of the colonial era It focuses on the ecological

dimensions of the explosive growth of tropical commodity production global trade and modern resource management transformations that still visibly shape our world today and how they were related to broader social cultural and political developments in Europe s colonies Covering the overseas empires of all the major European powers Corey Ross argues that tropical environments were not merely a stage on which conquest and subjugation took place but were an essential part of the colonial project profoundly shaping the imperial enterprise even as they were shaped by it The story he tells is not only about the complexities of human experience but also about people s relationship with the ecosystems in which they were themselves embedded the soil water plants and animals that were likewise a part of Europe s empire Although it shows that imperial conquest rarely represented a sudden bout of ecological devastation it nonetheless demonstrates that modern imperialism marked a decisive and largely negative milestone for the natural environment By relating the expansion of modern empire global trade and mass consumption to the momentous ecological shifts that they entailed this book provides a historical perspective on the vital nexus of social political and environmental issues that we face in the twenty first century world
