Mig Aces Of The Vietnam War:

MiG-21 Aces of the Vietnam War István Toperczer, 2017-09-21 Having learned their trade on the subsonic MiG 17 pilots of the Vietnamese People's Air Force VPAF received their first examples of the legendary MiG 21 supersonic fighter in 1966 Soon thrown into combat over North Vietnam the guided missile equipped MiG 21 proved a deadly opponent for the US Air Force US Navy and US Marine Corps crews striking at targets deep in communist territory Although the communist pilots initially struggled to come to terms with the fighter's air search radar and weapons systems the ceaseless cycle of combat operations quickly honed their skills Indeed by the time the last US aircraft a B 52 was claimed by the VPAF on 28 December 1972 no fewer than 13 pilots had become aces flying the MiG 21 Fully illustrated with wartime photographs and detailed colour artwork plates and including enthralling combat reports this book examines the many variants of the MiG 21 that fought in the conflict the schemes they wore and the pilots that flew them

MiG-17/19 Aces of the Vietnam War István Toperczer, 2016-10-20 At the beginning of the Vietnam War the Vietnam People's Air Force VPAF were equipped with slow old Korean War generation fighters a combination of MiG 17s and MiG 19s types that should have offered little opposition to the cutting edge fighter bombers such as the F 4 Phantom II F 105 Thunderchief and the F 8 Crusader Yet when the USAF and US Navy unleashed their aircraft on North Vietnam in 1965 the inexperienced pilots of the VPAF were able to shatter the illusion of US air superiority Taking advantage of their jet's unequalled low speed maneuverability small size and powerful cannon armament they were able to take the fight to their missile guided opponents with a number of Vietnamese pilots racking up ace scores Packed with information previously unavailable in the west and only recently released from archives in Vietnam this is the first major analysis of the exploits of Vietnamese pilots in the David and Goliath contest with the US over the skies of Vietnam

MiG-21 Units of the Vietnam War István Toperczer, 2012-11-20 Having honed their piloting skills on the subsonic MiG 17 and transonic MiG 19 the Vietnamese People's Air Force VPAF received their first examples of the legendary MiG 21 supersonic fighter in 1966 Soon thrown into combat over North Vietnam the guided missile equipped MiG 21 proved a deadly

opponent for the USAF Navy and Marine Corps crews striking at targets deep into communist territory Most of the VPAF's 12 aces scored their bulk of their kills in the MiG 21 which was then the best fighter produced by Russia's premier fast jet manufacturer Mikoyan Gurevich Well over 200 MiG 21s were supplied to the VPAF and the numerous models and the schemes they wore are chronicled in great detail in this unique volume *American Naval Forces in the Vietnam War* Al Hemingway, 2004-12-15 Describes the experiences of American naval forces during the Vietnam War **MiG-17 and MiG-19 Units of the Vietnam War** István Tópercz, 2012-11-20 A detailed history of the MiG 17 and MiG 19 units of the Vietnamese People's Air Force packed with first hand accounts and colour profiles The erstwhile enemy of the USAF and US Navy during the nine years of American involvement in the Vietnam War the Vietnamese People's Air Force VPAF quickly grew from an ill organised rabble of poorly trained pilots flying antiquated communist aircraft into a highly effective fighting force that more than held its own over the skies of North Vietnam As this book explores flying Soviet fighters like the MiG 17 and 19 the VPAF produced over a dozen aces whilst the Americans managed just two pilots and three navigators in the same period **Operation Linebacker I 1972** Marshall Michel III, 2019-01-24 Following the failure of Rolling Thunder US aircraft were now armed with new technologies such as new laser guided bombs and electronic warfare capabilities The Air Force now had the fearsome AC 130 gunship and a new generation of Wild Weasel anti radar aircraft and the US Navy aviators now had much better dog fighting training thanks to the new TOPGUN fighter school As the Paris peace talks floundered in early 1972 and the US began to disengage from Vietnam it was clear that the North Vietnamese were conducting a major build up for an attack into South Vietnam Screened by bad weather and heavy air defenses in the north the attack advanced quickly but the US pushed back with an air campaign named Operation Linebacker Their objective defeat the invasion preserve the government of South Vietnam and bring the North Vietnamese back to the Paris peace talks Fully illustrated with stunning full colour artwork this is the fascinating story of arguably the world's first modern air campaign [Air Power's Lost Cause](#) Brian D. Laslie, 2021-05-14 The first comprehensive treatment of the air wars in Vietnam Filling a substantial void in our understanding of the history of airpower in Vietnam this book provides the first comprehensive treatment of the air wars in Vietnam Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal Detailing the competing roles and actions of the air elements of the United States Army Navy and Air Force the author considers the strategic operational and tactical levels of war He also looks at the air war from the perspective of the North Vietnamese Air Force Most important for understanding the US defeat Laslie illustrates the perils of a nation building a one dimensional fighting force capable of supporting only one type of war **Air War Vietnam** Martin W. Bowman, 2025-08-05 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman's revealing narrative of the aerial conflict in

South East Asia 1965 1972 which had its beginnings in 1 November 1955 engulfed Vi tnam Laos and Cambodia and only ended with the fall of S i g n on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vi tnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vi tnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vi tnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked So too is the cost in human misery death and destruction
