Migration In The Middle East And Mediterranean

S. Irudaya Rajan, Prem Saxena

Migration In The Middle East And Mediterranean:

Migration, Security, and Citizenship in the Middle East P. Seeberg,Z. Eyadat,2013-08-13 This volume addresses new tendencies related to migration from a Middle Eastern and Mediterranean perspective and with an emphasis on security and citizenship Contributors aim not only to intervene in scholarly debates surrounding citizenship and migration but also to contribute to policy oriented discussions related to migration

Migration from the Middle East and North Africa to Europe Heinz Fassmann,Michael Bommers,Wiebke Sievers,2025-10-01 One of the most important challenges concerning the future of the European Union is the demographic reproduction of the European population Decreasing birth rates and the retirement of the baby boomers will dramatically reduce the labour force in the EU which will entail not only a lack of manpower but also lower contributions to European social systems It seems clear that the EU will have to counterbalance this population decrease by immigration in the coming years Migration Between the Middle East North Africa and Europe takes this challenge as a point of departure for analysing the MENA region in particular Morocco Egypt and Turkey as a possible source of future migration to the European Union At the same time it illustrates the uncertainties implied in such calculations especially at a time of radical political changes such as those brought about by the Arab Uprising A wide and scientific overview on migration potential from the NEMA region to the EU

Migration from North Africa and the Middle East Alessandra Venturini,Philippe Fargues,2015-06-22 The countries of the Southern and Eastern Mediterranean SEM and those in Sub Saharan Africa SSA are crucial to the development of the world economy Highly skilled migration to and from these regions is key to the recent socio political transformations that have occurred across the world Despite this in the states concerned skilled migration remains an underlying issue of concern rather than at the top of political agendas leading to a spectrum of unclear and uncoordinated legal and policy frameworks Containing a series of thematic and country specific overviews this book highlights the specificity of each region and identifies and analyses key demographic economic legal and political data allowing for policy prescription Skilled Migration the brain drain and its impact is an extensively debated phenomenon and this will be an essential companion for social scientists policy makers and development scholars

Migration in the Middle East and Mediterranean Martin Baldwin-Edwards,Panteion Panepistēmio Koinōnikōn kai Politikōn Epistēmōn. University Research Institute for Urban Environment and Human Resources. Mediterranean Migration Observatory,Global Commission on International Migration,2005

India's Low-Skilled Migration to the Middle East S. Irudaya Rajan,Prem Saxena,2019-10-10 This book provides new insights and research studies on how developing countries come to terms with the nationalisation policies of Gulf economies that provide employment for their nationals Focusing on regions and countries that have traditionally been overlooked it includes studies on labour migration from Egypt to the Middle East and from the Philippines to Lebanon migrant experiences and policy prospects in Saudi Arabia and Lebanon and Indian migration to the Gulf The book fills a critical gap in migration research by studying migration from various Indian

states such as Tamil Nadu Telugu speaking states Telangana and Andhra Pradesh Rajasthan and Uttar Pradesh It also explores the unexpected phenomenon of demographic windows of economic opportunity not documented in demographic literature observed in a few Arab countries due to older migrant expatriates returning to their home country the impact of international out migration on intergenerational educational mobility among children in migrant sending households in Kerala and forced migration of Kerala Muslims to the Gulf

Human Security and Migration in Europe's Southern Borders Susana Ferreira, 2018-12-13 This book examines the management of migratory flows in the Mediterranean within an international security perspective The intense migratory flows registered during the year 2015 and the tragedies in the Mediterranean Sea have tested the mechanisms of the Union's immigration and asylum policies and its ability to respond to humanitarian crises Moreover these flows of varying intensities and geographies represent a threat to the internal security of the EU and its member states By using Spain and Italy as case studies the author theorizes that the EU given its inability to adopt and implement a common policy to effectively manage migratory flows on its Southern border uses a deterrence strategy based on minimum common denominators

Climate Change in the Middle East and North Africa William R. Thompson, Leila Zakhirova, 2021-07-04 Environmental factors in the Middle East and North Africa MENA have played a crucial role in the historical and social development of the region The book delves into a broad set of historical literature from the past 15 000 years that neglected to consider environmental factors to their full effect Beyond the broad historic analysis the chapters derive conclusions for today's debate on whether climate change leads to more social conflict and violence Introducing a theoretical framework focused on adaptive cycling this book probes and refines the role of climate in ancient and modern political economic systems in the MENA region It also underscores just how bad the 21st century environment may become thanks to global warming While the MENA region may not survive the latest onslaught of deteriorating climate there is also some interest in how a region that once led the world in introducing all sorts of innovations thousands of years ago has evolved into a contemporary setting characterized by traditional conservatism poverty and incessant strife Emphasizing regional dynamics the book's central question deals with the role of climate change in the rise and decline of the MENA region The book will be a key resource to students and readers interested in global warming including academics and policymakers

Transit Migration in Europe Irina Molodikova, Franck Düvell, Michael Collyer, 2025-10-01 Transit migration comprising mixed flows of refugees and labour is widely considered a concern and even security threat However the concept is as vague and blurred as it is politicised This volume offers evidence based comprehensive coverage of the entire belt of countries in the neighbourhood of the EU ranging from Russia to Morocco Transit migration is critically analyzed from the perspective of sending transit and receiving countries offering new insights into refugee and irregular migration flows transnational migration networks and overlapping migration systems

A Global Middle East Liat Kozma, Cyrus Schayegh, Avner Wishnitzer, 2014-12-03 The start of the twentieth century ushered in a period

of unprecedented change in the Middle East. These transformations brought about by the emergence of the modern state system and an increasing interaction with a more globalized economy irrevocably altered the political and social structures of the Middle East even as the region itself left its mark on the processes of globalization themselves. As a result of these changes, there was an intensification in the movement of people, commodities, and ideas across the globe; commercial activity, urban space, intellectual life, leisure, culture, immigration patterns, and education, nothing was left untouched. It shows how even as the Middle East was responding to increased economic interactions with the rest of the world by restructuring not only local economies but also cultural, political, and social institutions, the region's engagement with these trends altered the nature of globalization itself. This period has been seen as one in which the modern state system and its oftentimes artificial boundaries emerged in the Middle East. But this book highlights how, despite this, it was also one of tremendous interconnection. Approaching the first period of modern globalization by investigating the movement of people, objects, and ideas into and out of the Middle East, the authors demonstrate how the Middle East in this period was not simply subject or reactive to the West but rather an active participant in the transnational flows that transformed both the region and the world. *A Global Middle East* offers an examination of a variety of intellectual and more material exchanges such as nascent feminist movements and Islamist ideologies as well as the movement of sex workers across the Mediterranean and Jewish migration into Palestine. *A Global Middle East* emphasises this by examining the multi-directional nature of movement across borders as well as this movement's intensity, volume, and speed. By focusing on the theme of mobility as the defining feature of modern globalization in the Middle East, it provides an essential examination of the formative years of the region.

The Middle East and North Africa Alasdair Drysdale, 2024-10-15. This contemporary text, the first in over a decade on the region, presents the geography of the Middle East and North Africa defined as the Arab World, Israel, Turkey, Iran, and Afghanistan. Thematically organized, the book's eleven chapters focus on the region's physical and climatic setting, demographic characteristics, migration patterns, religious and linguistic diversity, political map, offshore claims, oil and gas resources, and subregions and states. Within this framework, Drysdale emphasizes pressing current problems: the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity; the challenge of providing additional water in a region where per capita availability of freshwater is already the lowest in the world; the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force; the looming prospect of an aging population; the effects of out and in migration; the diverse impact and role of Islam in daily and public life; the integrative consequences of linguistic and ethnic diversity; the evolution and imperfections of the political map; ongoing territorial and boundary disputes that often have global repercussions; external dependence on the region's prolific oil and gas resources; and the extreme regional inequalities associated with their presence or absence. This timely and insightful analysis is essential reading for students of the region who need a better

understanding of key regional characteristics challenges and issues

Reviewing **Migration In The Middle East And Mediterranean**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing.
