Routledge Handbook of Wetlands Alan Dixon,Ian Maddock,2025-08-29 This handbook provides a comprehensive and interdisciplinary overview of the place value and significance of wetlands presenting perspectives from across the environmental and social sciences Recent decades have witnessed unprecedented global interest in wetlands and the critical role they play in supporting biodiversity and ecosystem services such as carbon storage flood mitigation as well as their direct benefits for people and society that include the provision of food clean water and a range of cultural services This Routledge Handbook of Wetlands brings together a wide range of perspectives from social and environmental disciplines and voices from different wetland stakeholders from the global north and south to present an assessment of our current understanding of wetlands their environmental significance and their place in society and policy A recurring theme of the book is an exploration of how our current knowledge of wetlands that is often fragmented along traditional disciplinary lines can be brought together to enable a more integrated interdisciplinary and social ecological conceptualisation that aligns more closely with real world complex challenges and which offers new directions in wetland management for sustainable development This handbook will be essential reading for students and scholars of wetland management environmental science water resource management conservation ecology environmental humanities and sustainable development

Computer-Mediated Communication Indrakshi Dey,2022-01-07 This book is an anthology of present research trends in Computer mediated Communications CMC from the point of view of different application scenarios Four different scenarios are considered telecommunication networks smart health education and human computer interaction The possibilities of interaction introduced by CMC provide a powerful environment for collaborative human to human computer mediated interaction across the globe

Decolonising African Theatre Samuel Ravengai,2024-04-11 Decolonisation can be pursued in different ways After many years of developing a critical language to engage coloniality the most urgent need in African theatre is to develop new theories and methods in our manufactories This Element uses Afroscenology as a theory to read and comment on African theatre The Element particularly focuses on the history of laboratories in which it was tested and emerged the historicization of rombic theatre and the crafting of a theory of the playtext which has been named theatric theory to distinguish it from the Aristotelian dramatic theory The second dimension of the theory is the performatic technique This Element also explain Afrosonic mime through examples drawn from the workshops conducted in training performers
