## **Migration Refugee Policy And State Building In Postcommunist Europe:**

**Migration, Refugee Policy, and State Building in Postcommunist Europe** Oxana Shevel, 2014-05-14 Why do similar postcommunist states respond differently to refugees with some being more receptive than others Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine **Migration, Refugee**

**Policy, and State Building in Postcommunist Europe** Oxana Shevel, 2011-10-24 Why do similar postcommunist states respond differently to refugees Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine Immigration and Refugee Law in Russia Agnieszka Kubal, 2019-04-11 How do

immigration and refugee laws work in action in Russia This book offers a complex empirical and nuanced understanding

**Twenty Years After Communism** Michael Bernhard, Jan Kubik, 2014-07-02 While the fall of the Berlin Wall is positively commemorated in the West the intervening years have shown that the former Soviet Bloc has a more complicated view of its legacy In post communist Eastern Europe the way people remember state socialism is closely intertwined with the manner in which they envision historical justice Twenty Years After Communism is concerned with the explosion of a politics of memory triggered by the fall of state socialism in Eastern Europe and it takes a comparative look at the ways that communism and its demise have been commemorated or not commemorated by major political actors across the region The book is built on three premises The first is that political actors always strive to come to terms with the history of their communities in order to generate a sense of order in their personal and collective lives Second new leaders sometimes find it advantageous to mete out justice on the politicians of abolished regimes and whether and how they do so depends heavily on their interpretation and assessment of the collective past Finally remembering the past particularly collectively is always a political process thus

the politics of memory and commemoration needs to be studied as an integral part of the establishment of new collective identities and new principles of political legitimacy Each chapter takes a detailed look at the commemorative ceremony of a different country of the former Soviet Bloc Collectively the book looks at patterns of extrication from state socialism patterns of ethnic and class conflict the strategies of communist successor parties and the cultural traditions of a given country that influence the way official collective memory is constructed Twenty Years After Communism develops a new analytical and explanatory framework that helps readers to understand the utility of historical memory as an important and understudied part of democratization

Fragile Migration Rights Matthew Light, 2016-03-10 The Soviet Union comprehensively governed the mobility of its citizens by barring emigration and strictly regulating internal migration In the aftermath of the Soviet collapse the constitution and laws of the new Russian Federation appeared to herald a complete break with the repressiveness of the previous government Russian law now proclaims the right of Russian citizens and residents to move around their country freely This book examines how and why this post Soviet legal promise of internal freedom of movement has been undermined in practice by both federal and regional policies It thereby adds a new dimension to scholarly understanding of the nature of rights citizenship and law enforcement in contemporary Russia Most contemporary works focus on the attempts of developed Northern countries to regulate migration from the global South to the global North here Matthew Light examines the restriction of migration within Soviet and post Soviet Russia providing a comprehensive view into an area rarely explored within migration scholarship Fragile Migration Rights develops a comprehensive theoretical framework to analyse this complex subject It is essential reading for students and academics from a range of disciplines including criminology human rights migration studies and political science

**Russian Citizenship** Eric Lohr, 2012-10-31 In the first book to trace the Russian state's citizenship policy throughout its history Lohr argues that to understand the citizenship dilemmas Russia faces today we must return to the less xenophobic and isolationist pre Stalin period before the drive toward autarky after 1914 eventually sealed the state off from Europe

**Ukrainian Migration and the European Union** Bastian Vollmer, 2016-02-03 To migrate or not to migrate that is the question This book discusses migration in the highly topical context of Ukraine and explores the imaginations life stories aspirations and life projects of people in Ukraine through a consideration of Ukrainian migration to the European Union EU from the perspective of the sending country Building on the existing literature and drawing on a rich variety of empirical data and field research this text addresses migration by Ukrainian nationals into the EU and how and why people leave or stay in Ukraine The book also considers questions of subjectivity the self and the construction of narratives and contributes more widely to the significant academic and policy debates surrounding Ukrainian migration in the EU

The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century Włodzimierz Borodziej, Sabina Ferhadbegović, Joachim von Puttkamer, 2020-04-21 Statehood examines the extending lines of development of nation state systems in Eastern Europe in particular considering why certain

tendencies in state development found a different expression in this region compared to other parts of the continent This volume discusses the differences between the social developments political decisions and historical experience that have influenced processes of state building with a focus on the structural problems of the region and the different paths taken to overcome them The book addresses processes of building social orders and examines the contribution of state institutions to social and cultural integration and disintegration It analyses institutional and personnel continuities that have outlasted the great political changes of the twentieth century and addresses the expansion of state activity in shaping property relations in agriculture and industry as well as in social security and family politics Taking a comparative approach based on experiential history allowing individual experience to be detached from specific national references the volume delineates a transnational comparison of problems shared within the region as they have been passed down through history providing definition to the specificity of Eastern Europe and situating the historical experience of the region within a pan European context The second in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in statehood and state building in this complex region *Transferring Asylum Norms to EU Neighbours* Irina

Mützelburg, 2022-11-08 This book analyses why the Ukrainian state established asylum laws and policies in the thirty years since 1991 even though the number of asylum seekers was very low International and non governmental organisations transferred international asylum norms to Ukraine Various state and non state actors participated in this process translating spreading and resisting those norms In many cases legislative adoption was driven by domestic politicians pursuit of recognition by international organisations such as the European Union and the Council of Europe and by their desire to meet conditionality requirements NGOs sought to influence administrative practices alternating between confrontational and conciliatory formal and informal approaches and often relying on personal contacts Actors used and shifted between scales in order to transfer norms or resist transfer In the process they produced renegotiated and confirmed those scales For instance NGOs resorting to the European Court of Human Rights to prevent refoulement placed the European scale above the national scale This book offers a new multi actor and multi scalar analysis of policy transfer **Struggles for Belonging** Dieter Gosewinkel, 2021 This book recounts the history of citizenship in 20th century Europe focussing on six countries Great Britain France Germany Czechoslovakia Poland and Russia It is the history of a central legal institution that significantly represents and at the same time determines struggles over migration integration and belonging
